"I just finished the 'Get Golf Ready' program and wanted to thank you. It took me from beginning rookie to course rookie and now I have confidence to actually get out on the courses and try real golf for the first time in my 60-year old life. It's a great price; the value of the program was more than I could resist, and now I'm hooked. The instructor was professional, fun, very helpful, very patient. Great program, great facilities, great people. It makes me proud, again, to be a BV resident!"
