The Committee met with officials of the City of Bella Vista to determine if the two entities could jointly commission an H&H Study in an effort to split the expense. It was determined that while some of the study could be shared, certain portions of the study would be specific only to the City, and other portions of the study would be specific only to the POA. It was verbally agreed that if any portion of the study was specific to one but not the other, then the respective entity would pay for the portion of the study. For portions of the study that we jointly need, the expense would be split evenly.

It was suggested at this meeting that we consider Burns McDonnell for the H&H Study. The City has worked previously with this firm with much success. Mr. Judson stated he would contact Ryan Castor of Burns McDonnell to set up a meeting.

The meeting concluded at 10:00 A.M.
