Subject: Golf Rounds Report for December and Year End 2022

December Rounds Report are as follows:

- December rounds ended at 5,339.
 - Down by 4,266 over last year's December.

Extremely cold weather played the major factor in the decrease in rounds and range buckets for the month of December. All courses were closed for an average of 5 days in December and the Bermuda green courses were shut down for 21 days. Looking back on round numbers December 2018 was the last time that we had this lower rounds and that was due to flooding.

- 2022 rounds ended at 170,857.
 - Down by 1,824 over last year. Not bad as the weather turned cold for the months of November and December as well as have BVCC closed for three months.
 - Members rounds ended at 114,313
 - Down by 9,904 over last year.
 - Guest rounds ended at 65,544.
 - Up by 8,080 over last year.
- Range buckets year to date 63,946 (up by 2,950 over 2021).
 - December buckets 2,124 (down by 1,010 over last year December).
