July 2026 was an exceptionally hot month, with temperatures and heat index values reaching record levels across the region. Despite these extreme conditions, I would like to recognize and thank Graham and his maintenance team for their outstanding dedication and hard work. Their efforts have kept the golf course in excellent condition, with the greens remaining healthy and providing an exceptional putting surface for our members and guests.

I would also like to remind all members to repair their ball marks on the greens. This is a critical time of year, as the greens are softer and more susceptible to damage. Taking a few extra seconds to properly repair ball marks helps maintain the quality and playability of our putting surfaces for everyone.

Range buckets ended the month at 55,945 (up by 17,072 over the past year)

- Member total buckets 47,389, Guest total buckets 8,556.
